

We wish to extend our sincere gratitude to our parishioners and school families for your invaluable and tremendous participation in our recent Town Hall meetings. We are also thankful to our teachers and staffs for their high level of participation and professionalism exhibited during this stage of school planning process.

The purpose of the work of the Washington Steering Committee was to assist all of us in understanding our current parish school realities and in bringing unity within our communities to strengthen and secure Catholic education for future generations.

Fully knowing and understanding that change is hard and challenging, and not something any one of us takes lightly, the pastors and Washington Steering Committee will reconvene and discuss the results of all the Town Hall meetings, regarding their significance for the 2020-2021 school year. All schools will remain parish schools for the 2019-2020 school year.

God bless you all and God bless our Catholic schools!
